How to use this planner

1. Start with seed words — the obvious phrases for your niche.
2. Type each into the Pinterest search bar — and record the autocomplete suggestions.
3. Click the guided search tiles — for more related keywords.
4. Aim for 30–50 keywords to start. Favor specific, longer phrases.

VERIFY AS YOU GO

If a keyword shows up in Pinterest's autocomplete, real people search it — keep it.
If nothing comes up, skip it.
