THE PART NOBODY TELLS YOU

You found the look. Now what?

Every single look comes with four jobs.
Tomorrow brings a new look and the same
four jobs.

Another late one

YOUR TASTE RUNS IT

My pink. Your recipe.

THREE CHOICES YOU MAKE ONCE

1

Your theme

2

Your visuals

your own persona, or flat
lays only

3

**Your storefront
path**

PICTURE YOUR FIRST LOOK

A weekend outfit, a seasonal shelf, a gift guide your people
would save.

HOW IT RUNS

Three steps. Then it keeps going.

The computer stays on. You don't have to.

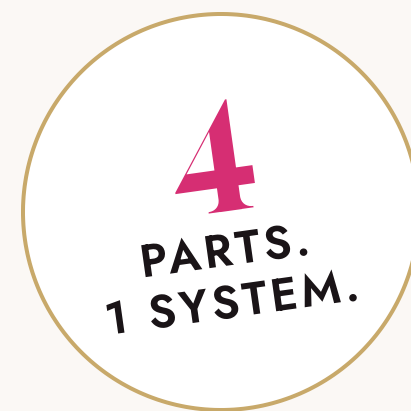

YOU CHOOSE

Automatic by default. Turn approvals on for your first few days if you like to check everything.

WHAT'S INSIDE THE KIT

The pieces behind the pretty.

1

Set it up

A guided setup that records your choices.

2

Build the looks

The themed-look recipe for any theme or season.

3

Keep it running

Scheduled tasks, plus a missed-run check.

4

Extend it

Optional blog and Instagram. Outfit of the Day recipe for Brand Closet™ members.

HONEST, UP FRONT

A quick fit check. Then your first look.

Your tools

Claude desktop and Chrome, Amazon Associates or Influencer, Pinterest, image tools.

Your setup

Your own accounts. The computer needs to be on when the tasks run, and the Amazon list step uses the browser on that computer. Tool costs are separate.

Your path

Blog and Instagram are optional.

JODIE'S RULE

Automatic by default, with the option to approve everything yourself. We recommend turning approvals on for your first few days.

The kit does not promise sales or income.
